Dear Sir/Madam:

Johnson Matthey Inc. has moved the location of its Transportation and Communications Group from Corporate Headquarters at 4 Malin Road, Malvern, PA to our 1401 King Road, West Chester, PA manufacturing facility. As a consequence, the hazardous waste activities conducted at these two sites have changed.

- 1. The 4 Malin Road location has <u>ceased to be a transporter</u> of hazardous wastes. (It had submitted a notification on 4/4/85, as a result of EPA's 1/4/85 amendments to the definition of solid waste specifically 40 CFR 266 Subpart F "Recyclable Materials Utilized for Precious Metal Recovery"). No hazardous waste activities are carried out at Johnson Matthey Headquarters, so the EPA identification number will no longer be needed.
- 2. The 1401 King Road location had notified previously as a generator and storage facility and has submitted its Part B application to PA DER for review. It is now also the home of Johnson Matthey's trucks, and thus becomes a Transporter. Wastes added to the notification are those precious metal-containing recyclable materials that may be transported by Johnson Matthey trucks.

PA Department of Environmental Resources Bureau of Solid Waste Management And U.S. Environmental Protection Agency Region III 7 October 1985 Page 2

PA DER and US EPA notification forms are attached describing the change in status at the two Johnson Matthey Inc. facilities referenced.

If you have any questions, I can be reached at 215-341-8529.
